BALANCE CHAIR

JONATHAN PRESTWICH

THE SOFTER WORKPLACE

"THE NEW WORKPLACE MUST
ENCOURAGE A SENSE OF BELONGING,
PROMOTE WELL-BEING, BE
PURPOSEFUL AND ALLOW PEOPLE TO
THRIVE IN THEIR WORK — TO DO THIS,
IT MUST BE MORE HOSPITABLE"

JONATHAN PRESTWICH

As the world has shifted to a new working environment, where the quiet comforts of home and the inspiring energy of the workplace overlap, the Balance chair reinterprets the traditional office chair to strike the perfect balance between task chair functionality and armchair comfort, spot on for today's blended working.

BALANCING ACT

"THE PURPOSE WAS TO CREATE A CHAIR THAT WAS INSPIRING, MOBILE AND DYNAMIC WHILST ALSO BEING WELCOMING AND COMFORTABLE."

JONATHAN PRESTWICH

The Balance chair's soft, welcoming form departs from the typical hard surfaces and high-tech look of the work chairs of yesterday creating a vastly more hospitable environment, reminiscent of home.

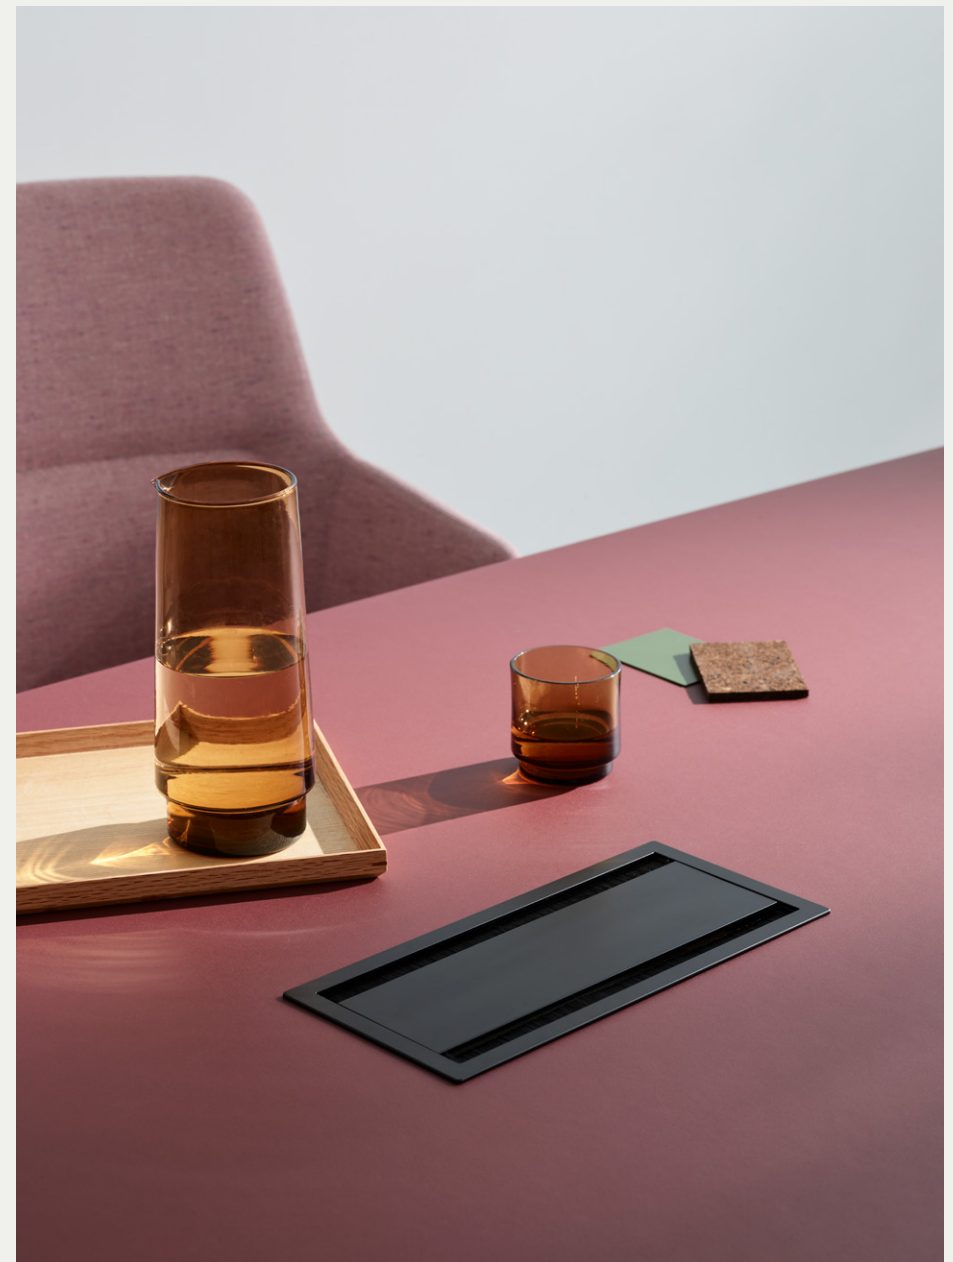

With a responsive, weight adjusting mechanism, the Balance chair creates a synergy between user and chair, reacting to every movement, making meetings more fluid and collaboration effortless, balancing responsiveness with an inviting softness.

BALANCE CHAIR

Mix table by Jonathan Prestwich
with burgundy lino top and silk grey legs.

Bridging the gap between meeting space and home office, the Balance chair is the perfect fit for our new hybrid work style.

BEAUTIFUL ERGONOMICS

Ergonomically designed for long periods of sitting and responsive enough for the most dynamic of meetings, the Balance chair meets the demanding requirements of BS EN1335-1:2020 without compromising on aesthetics.

Focus or collaborate, home or office, you choose.

A CHAIR FOR EVERYONE

With its weight responsive tilt mechanism and height adjustability, the Balance chair has been designed to fit every type of user.

A smooth gas lift, 5 castor base and lockable tilt mechanism adds to the chair's fluidity.

Mechanical adjustability meets refined upholstery, a meticulously tailored, hand finished cover completes the chair's uncompromised aesthetic — inclusive design, beautifully made.

BALANCE CHAIR

Pearson Lloyd Edge desk and cabinet.

RESOURCEFUL DESIGN

Created with a removable fabric cover, the Balance chair has been designed to be easily refurbished with a new cover, keeping it in use over multiple life cycles making it purposeful, inclusive and resourceful.

Because the most sustainable chair you can have, is the one you already own.

With a 10 year warranty as standard, the Balance chair is built to last. For every 10 chairs we supply we will plant a tree, the right tree, in the right place, supporting tree planting projects that work with local communities to restore lost woodland, provide biodiverse habitats and capture carbon for many years to come.
